ABOUT US

Our company, established under the name URAZ, operates in construction, mechanical and electrical installations, engineering, and contracting. Originally entering the industry in 2007 under the name TEKSAN ENGINEERING in Tyumen, Russian Federation, our company has built a strong reputation over the years by delivering high-quality services. In 2023, we continued our operations under the URAZ brand.

With its experienced team and professional approach, URAZ executes all phases of projects—including design, engineering drawings, implementation, and final delivery—flawlessly and on schedule.

As the URAZ family, we are committed to maintaining quality and completing every project we undertake on time. Quality and client satisfaction remain our top priorities. Our contracting services cover all types of construction works.

Our company is committed to delivering projects to clients with the highest level of satisfaction, within the framework of time, resources, and budget constraints. This commitment is reflected in our references, showcasing both completed and ongoing projects.

By applying the latest technologies, we adopt the principle of providing and implementing the most efficient solutions. Our services encompass all stages—from project planning and design, through manufacturing, assembly, and commissioning, to ongoing technical support—ensuring a seamless and effective service experience.

MANAGEMENT MESSAGE

The construction and mechanical engineering sector is constantly evolving and demands a high level of responsibility.

At URAZ, our goal is not only to complete projects but also to provide our clients with long-term, reliable solutions.

We approach each project as a responsibility, adhering strictly to engineering discipline, quality standards, and occupational safety.

Thanks to our experienced technical team and innovative approach, we complete our projects on time and to the highest quality standards.

In the future, we will continue to grow as a trusted partner in our industry and to deliver new and innovative projects.

VISION

To become a strong engineering company, nationally and internationally recognized for reliability, technical capability, and project success in the mechanical engineering and contracting sector.

MISSION

To provide our clients with reliable and high-quality engineering solutions

To complete projects in accordance with international standards

To develop sustainable and efficient systems

To prioritize occupational safety and quality at all times

OUR VALUES

At URAZ, we conduct all our operations based on the following core values:

Reliability

We keep our promises and complete our projects as committed.

Quality

We adhere to international quality standards in all projects.

Engineering Discipline

We approach every project with technical analysis and a professional engineering mindset.

Sustainability

We support energy-efficient and environmentally responsible systems.

Customer Satisfaction

We aim to establish long-term partnerships with our clients.

OUR SERVICES

URAZ provides comprehensive engineering and implementation services.

Mechanical Installation Systems

HVAC systems, heating, cooling, and ventilation solutions.

Industrial Mechanical Systems

Custom mechanical system design and implementation for industrial facilities.

Construction Contracting Services

Turnkey solutions for public and private sector projects.

Electrical and Infrastructure Systems

Electrical installations, infrastructure systems, and technical implementations.

Steel Construction

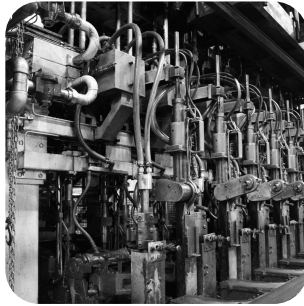

Steel structure solutions for industrial and commercial buildings.

TECHNICAL CAPABILITIES

URAZ, with its technical capacity and experienced team, plays an active role in large-scale projects.

HVAC Systems

Industrial Mechanical Installation

Central Heating and Cooling Systems

Fire Protection Systems

Pressurized Piping Systems

Energy-Efficient Mechanical Solutions

Large-Scale Project Management

OUR PROJECTS

COMPLETED PROJECTS

ST. PETERSBURG - MEGA MALL

Information	Detail
Location	St. Petersburg - Russia
Project Type	Shopping Mall
Total Construction Area	120.000 m ²

OUR PROJECTS

COMPLETED PROJECTS

MOSCOW EGOPLAST ZAO

Information	Detail
Location	Moscow - Russia
Project Type	Industrial Facility / Factory
Total Construction Area	36.500 m ²

OUR PROJECTS

COMPLETED PROJECTS

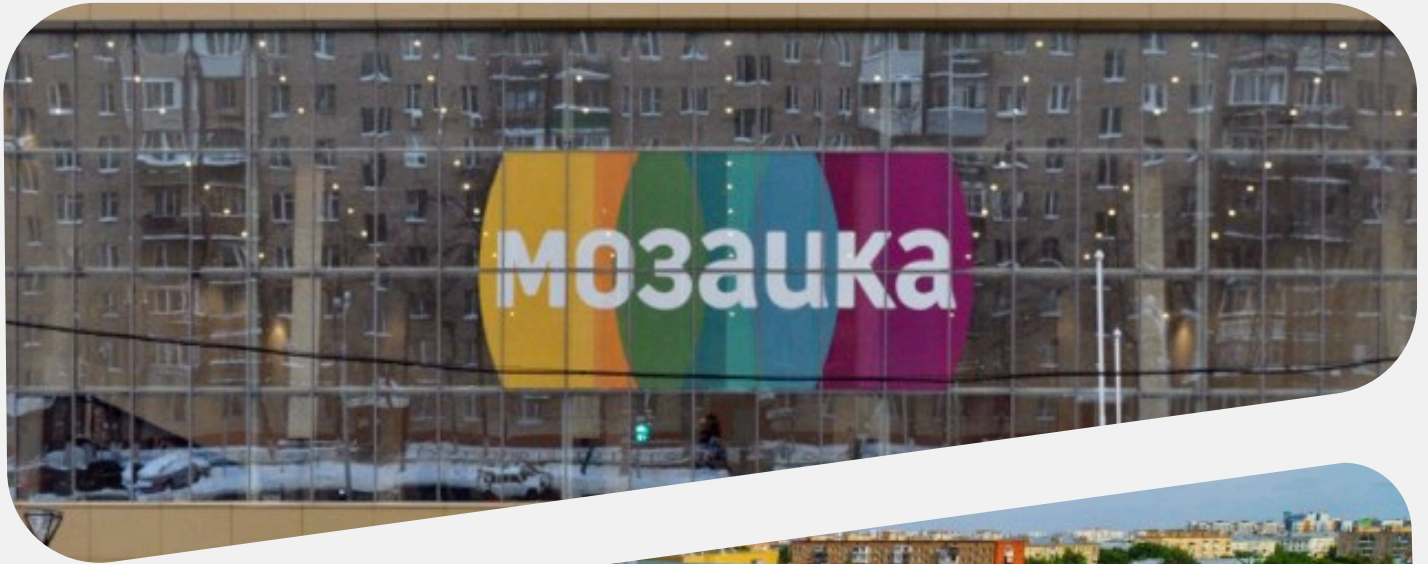

NOVOROSSIIYSK VERHNEBAKANSKIY CEMENT FACTORY

Information	Detail
Location	Novorossiysk - Russia
Project Type	Cement Factory
Total Construction Area	52.000 m ²

OUR PROJECTS

COMPLETED PROJECTS

Moscow Mozaika Mall

Information	Detail
Location	Moscow - Russia
Project Type	Shopping Mall
Total Construction Area	134.000 m ²

OUR PROJECTS

COMPLETED PROJECTS

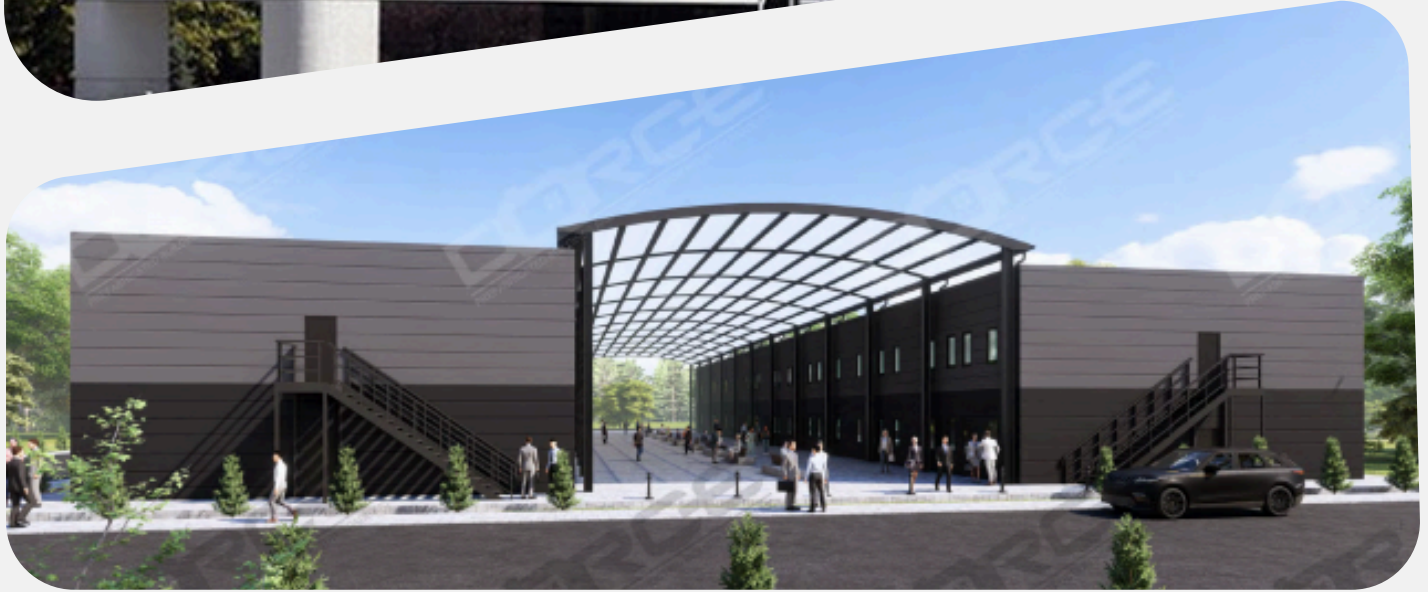

PRODUCTION AND DELIVERY OF 25,000 LIFE CONTAINERS FOR AFAD

Information	Detail
Location	Across Türkiye / Türkiye
Project Type	Production and Logistics / Life Containers
Total Construction Area	45.000 m ² (Production Facilities and Shipping Areas)

OUR PROJECTS

COMPLETED PROJECTS

ROKETSAN LALAHAN CAFETERIA AND ADMINISTRATIVE BUILDING

Information	Detail
Location	Lalahan - Ankara - Türkiye
Project Type	Cafeteria and Administrative Building
Total Construction Area	9.500 m ²

OUR PROJECTS

COMPLETED PROJECTS

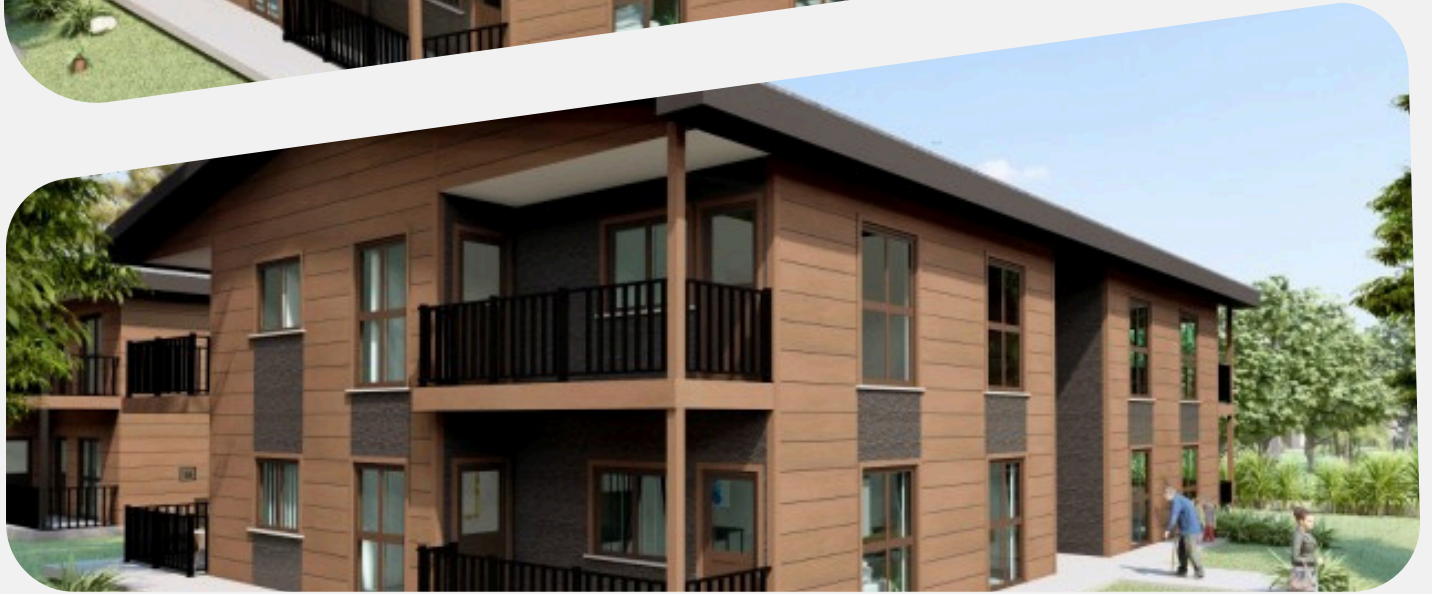

TPAO ADIYAMAN ADMINISTRATIVE BUILDING

Information	Detail
Location	Adiyaman - Türkiye
Project Type	Administrative Building
Total Construction Area	7.800 m ²

OUR PROJECTS

COMPLETED PROJECTS

TPAO ADIYAMAN: 52 STAFF HOUSING BUILDINGS

Information	Detail
Location	Adiyaman - Türkiye
Project Type	Residential / Dormitory Buildings
Total Construction Area	15.600 m ²

OUR PROJECTS

COMPLETED PROJECTS

HTRS PROJECT, PHASE 3: ESKİŞEHİR CONSTRUCTION AND INFRASTRUCTURE WORKS

Information	Detail
Location	Eskişehir - Türkiye
Project Type	Construction and Infrastructure Project
Total Construction Area	22.500 m ²

OUR PROJECTS

COMPLETED PROJECTS

MOBILIZATION WORK AT THE ADANA POLYPROPYLENE PRODUCTION FACILITY

Information	Detail
Location	Adana - Türkiye
Project Type	Industrial Facility – Mobilization Work
Total Construction Area	28.000 m ²

OUR PROJECTS

COMPLETED PROJECTS

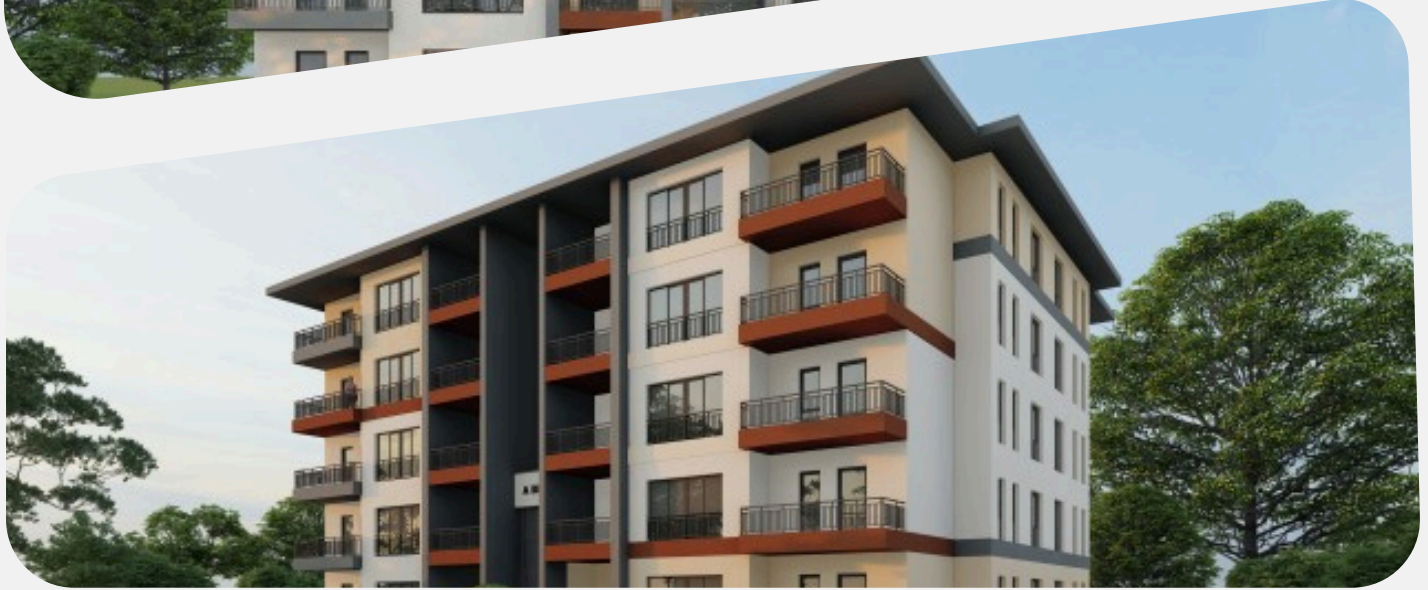

MOBILIZATION WORK AT THE ANKARA COURTHOUSE

Information	Detail
Location	Ankara - Türkiye
Project Type	Courthouse – Mobilization Services
Total Construction Area	48.500 m ²

OUR PROJECTS

COMPLETED PROJECTS

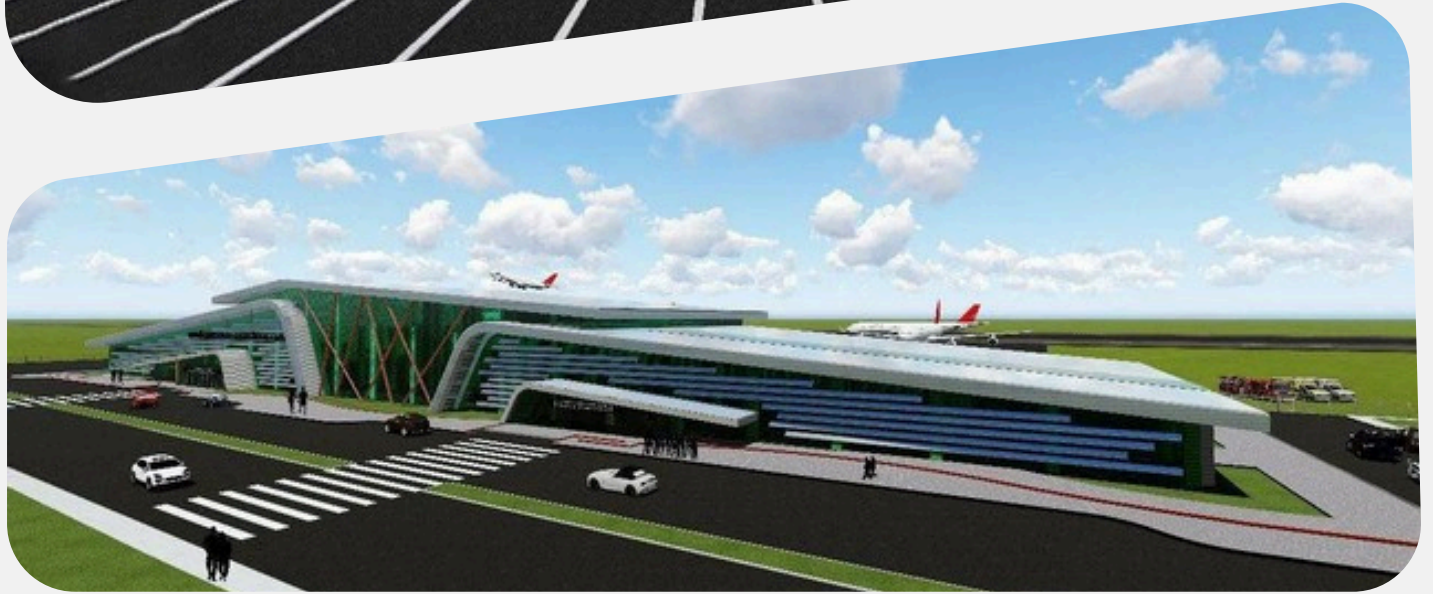

ÇANAKKALE STRAIT COMMAND HEADQUARTERS HOUSING COMPLEX

Information	Detail
Location	Çanakkale - Türkiye
Project Type	Residential / Dormitory Buildings
Total Construction Area	12.400 m ²

OUR PROJECTS

ONGOING PROJECTS

CONSTRUCTION OF THE CAPPADOCIA AIRPORT TERMINAL BUILDING AND ANCILLARY FACILITIES

Information	Detail
Location	Nevşehir - Türkiye
Project Type	Airport Terminal and Ancillary Facilities
Total Construction Area	28.000 m ²

OUR PROJECTS

ONGOING PROJECTS

CONSTRUCTION PROJECT FOR A 2.500-BED STUDENT DORMITORY IN ANKARA

Information	Detail
Location	Çankaya - Ankara - Türkiye
Project Type	Student Dormitory
Total Construction Area	55.000 m ²

OUR PROJECTS

ONGOING PROJECTS

ADANA VACCINE STORAGE FACILITY CONSTRUCTION PROJECT

Information	Detail
Location	Adana - Türkiye
Project Type	Warehouse / Cold Chain Facilities
Total Construction Area	6.200 m ²

OUR PROJECTS

ONGOING PROJECTS

ADANA: CONSTRUCTION OF 5 PRIMARY HEALTH CARE CENTERS

Information	Detail
Location	Adana - Türkiye
Project Type	Family Health Center
Total Construction Area	3.750 m ²

OUR PROJECTS

ONGOING PROJECTS

OSMANIYE: CONSTRUCTION OF 4 PRIMARY HEALTH CARE CENTERS

Information	Detail
Location	Osmaniye - Türkiye
Project Type	Family Health Center
Total Construction Area	3.000 m ²

OUR QUALITY POLICY

URAZ considers quality to be a fundamental principle in all its business processes.

Our Quality Policy:

- Production in compliance with international standards
- A commitment to continuous improvement
- Customer-focused service
- Monitored and controlled project processes

WHY URAZ?

With its engineering expertise, experienced technical staff, and solution-oriented approach, URAZ operates as a reliable business partner at every stage of projects. Since its establishment, URAZ has embraced the principles of quality, trust, and sustainability; through the experience gained in projects of various scales, it has achieved a strong position in its sector.

Our company meticulously manages all projects from the planning phase through implementation and delivery, developing technical solutions that best meet our clients' needs. Thanks to our engineering-driven work philosophy, our projects deliver high efficiency not only from a technical perspective but also in terms of economic and sustainable solutions.

URAZ's greatest strength lies in its team of expert engineers, strong field crews, and modern technical infrastructure. International standards are followed throughout project processes, and quality control and workplace safety practices are maintained at the highest level.

We view every project not merely as a job, but as the beginning of a long-term business partnership. This approach allows us to build strong, trust-based relationships with our clients and complete our projects to their full satisfaction.

With its experience, technical capabilities, and commitment to reliable service, URAZ continues to be a preferred, strong solution partner for large-scale projects.
